

File Specifications

Featured Organizations:

- Your directory should contain the “html” file and an “images” folder containing all referenced images with your profile.
- Images should be in GIF or JPEG format. It is recommended that each image be less than 50K in size for quick download.
- A printed copy of the pages should be provided so we may verify accuracy.

For Banners we recommend:

- Animated or non-animated advertising banners can be used to link to your web site’s pages.
- Banners should be in a GIF or JPEG format. Separate file for each banner.
- Size should not exceed 3” across by 1” deep - (72 pixels per inch).

For placement of your banners on the www.americanhospitals.com site you **MUST** specify the following for each banner:

- file name
- section or specific location where each banner is to be placed
- the address (URL) to which each banner should be linked.

Files can be sent as an email attachment to artwork@spindlep.com.
